

God sent His Son nearly 2000 years ago. His coming and all that He suffered and accomplished was as the prophets foretold in the Bible. He is coming again. His coming again and the end of the age will be exactly as prophesied. God wants His children to know the signs of the times that will mark the end-time event called the Tribulation. The Bible gives many examples of signs of the coming end of the age. We are told we will not know the exact time of the end, but when these signs begin to take place we should expect His coming. Six such signs are given by Jesus, two characteristics are given by Paul, and ten other occurrences are given by the prophets to occur prior to the end of the age. God obviously wants us to know when that time is getting near. It's important that we know these signs. Many will be caught up in the deception of the enemy to their own destruction. Because many do not know, they will be easily deceived by the enemy. All of the prophetic signs of the end times have come together in our generation. Picture each prophetic sign like a domino positioned in a line. One by one they have been set in place in our generation. As each sign is examined you will see how close we are to the final event called the Tribulation. The Tribulation is a future seven-year period of time when God will finish His punishment of the nation Israel and at the same time judge the unbelieving world.
